Experience

- **Full Stack Web Developer Summer Internship - ShapeAI** — Remote
  Full Stack Developer — July 2021 - Sep 2021
    - **BookMyShow Clone Project:** Developed a fully functional BookMyShow clone website to buy and rent movies having Razorpay as its payment gateway implementing Frontend and backend tech stacks- HTML, Tailwind.CSS, Node.js, Express.
    - **Github**: https://github.com/RahulPraj/BOOK-MY-SHOW

Projects

- **E-commerce Shopify Website**
  Language Tech Stack: HTML, CSS, BootStrap, JavaScript, Node.js, Express.js, MongoDB.
    - **Description:** This E-commerce Shopify project showcases my proficiency in *HTML, CSS, BootStrap, JavaScript, Node.js, Express.js, and MongoDB*. This project highlights my full-stack development skills, from designing an intuitive user interface to implementing secure authentication, validation seamless checkout, and real-time order management with successful website deployment.

    - **Render: https://shopify-x0n9.onrender.com**
- **Github-Like-App**
  Language Tech Stack: HTML, CSS, JavaScript, React.js, Node.js, express.js, MongoDB.
    - **Description:** I developed a project called a Github-like app using a MERN stack. For the frontend, I utilized React with Vite for faster development. In the backend, I employed Node.js and Express.js, along with MongoDB for the database. The app's main features include user authentication, signup, and login functionalities, for which I implemented Passport.js. Additionally, I integrated Passport-GitHub2 to enable authentication through GitHub API, allowing users to log in with their GitHub accounts seamlessly. One of the key functionalities of the app is the ability to like other users' profiles and search for new users based on their repositories
    - **Github**: https://github.com/RahulPraj/github-like-app
    - **Render:**https://github-like-app-yb2e.onrender.com
- **Quiz-App**
  Language Tech Stack: HTML, CSS, JavaScript, React(vite).
    - **Description:** This React-based quiz app offers users an interactive experience with features like question display, score tracking, lifelines (hints and 50-50), and timers. It ensures smooth navigation between questions and provides audio cues for correct and incorrect answers. Leveraging React Router, it offers seamless transitions between components, creating an engaging quiz environment.

Skills

- **Languages:** JAVA, HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, OOPS, DBMS, MySQL, NoSQL.
- **Soft Skills:** Leadership, Event Management, Time Management.

Education

- **Maharaja Agrasen Institute Of Technology, New Delhi** — 2019- 2023
  Bachelor of Technology - Mechanical and Automation (completed) — *CGPA: 8.45/10*
- **GTB 3rd Centenary Public School, New Delhi** — 2018-2019
  Class XII, CBSE — *perc: 73.5*
- **GTB 3rd Centenary Public School, New Delhi** — 2016-2017
  Class X, CBSE — *CGPA: 8.4/10*

Position and Responsibility

- **PR Head of Expressions- The Fine Arts and Craft Society of MAIT.** — 2022 - 2023
  I contributed to a college wall painting project as an Arts and Crafts Society member.

Courses and Certification

- **Full Stack Development.** — Jun2023 - Dec2023
  Coding Blocks
